sahoodharmeshkumar2205@gmail.com | +91-9178315649 | Patia, Bhubaneswar, India - 751024 | [linkedin.com/in/its-dharmesh](https://www.linkedin.com/in/its-dharmesh)

Salesforce Developer with **2+** years specializing in **Large Data Volume (LDV) optimization** and enterprise-scale Lightning applications. Architected **200+** LWC components and Apex classes, achieving **50%** performance improvements for **100K+** record datasets. **3x** Salesforce Certified (Platform Developer I, AI Specialist, AI Associate) | Trailhead Ranger with **144** badges. Expertise in fleet safety, EHS compliance, and energy domains.

• WORK EXPERIENCE

Software Engineer - Salesforce Developer

Jun 2024 – Present

Rhythm Innovations, Patia, Bhubaneswar

- ▶ Architected **70+** Lightning Web Components (LWC) and **60+** Apex classes for enterprise fleet safety and EHS compliance platforms.
- ▶ Delivered **200+** LWC Components and Apex classes overall, serving insurance and compliance use cases for **Hero Future Energies (HFE)**.
- ▶ Led end-to-end implementation of the **Hero Future Energies (HFE)** module single-handedly within **4-month** timeline, delivering Incident Management, Hazard Reporting, Training Management, Mock Drills, Attendance Tracking, and Root Cause Analysis (5-Whys), reducing manual tracking by **60%** and digitizing paper-based processes.
- ▶ Constructed SPS Command Center, a Large Data Volume (LDV) optimized fleet compliance dashboard with cursor-based pagination handling **100K+** driver/location/vehicle records, achieving **50%** faster query performance using SOQL optimization techniques.
- ▶ Designed metadata-driven LWC Dashboard Components using Custom Metadata Types (Dashboard_Configuration__mdt, Dashboard_Tile__mdt), configurable based on user personas, enabling non-technical users to configure analytics without code changes.
- ▶ Integrated external APIs using Named Credentials and REST API callouts: AWS S3 for document storage, Samba Safety for MVR ordering, and WhatsApp for notifications.
- ▶ Engineered multi-portal architecture using Experience Cloud (**3** portals: Platform, Community, Mobile) with role-based access using Custom Permission Sets and configurable menu system.
- ▶ Created metadata-driven driver readiness engine using Readiness_Gate__mdt, Readiness_Rule__mdt to evaluate fitness-to-drive status across license, MVR, medical, and telematics domains.
- ▶ Automated **70+** Salesforce Flows for **Hero Future Energies (HFE)** and Safer-Fleet, streamlining fleet compliance workflows including license expiration alerts, DOT medical reminders, and telematics event notifications.
- ▶ Implemented innovative UX features including Voice Navigation and End-to-End Chat-Bot, reducing navigation clicks by **30%** for enhanced user experience.
- ▶ Leveraged **Cursor AI** for accelerated development, code reviews, and automated refactoring, improving development velocity by **40%**.

Salesforce Developer Intern

Sep 2023 – Mar 2024

OpenText, Bangalore, India

- ▶ Contributed to enterprise platform development over **6** months, collaborating with a team of **5** developers on Apex, LWC, and Salesforce configuration.
- ▶ Crafted **15+** custom Lightning Web Components for internal tools, improving team efficiency by **30%** and automating manual processes.
- ▶ Created and maintained Apex triggers, classes, and batch jobs for business logic automation, supporting **10+** internal stakeholders.
- ▶ Generated Reports and Dashboards providing actionable insights, reducing manual reporting time by **25%**.
- ▶ Streamlined Salesforce development lifecycle processes including sandbox management, change sets, and deployment workflows.

• TECHNICAL SKILLS

Salesforce Dev:	Apex, LWC, Aura, Flows, SOQL, SOSL, Triggers, Batch Apex, Custom Metadata Types, Named Credentials, LDV Patterns, Platform Events
Front End:	Lightning Web Components, Aura Components, HTML5, CSS3, JavaScript ES6+, LWC OSS
Backend & APIs:	REST API, SOAP API, Bulk API, Spring Boot, JSON, XML, AWS S3 Integration
CRM & Analytics:	Salesforce CRM, Sales Cloud, CRM Analytics (Tableau CRM), Dashboards, Reports, Datasets
Tools & DevOps:	Salesforce DX (SFDX), VS Code, Git, GitHub, JIRA, Azure DevOps, Confluence, Postman, Workbench, Data Loader, Salesforce CLI
AI & Productivity:	Cursor AI, GitHub Copilot, Salesforce Einstein, Prompt Engineering, Code Review Automation
Security & Testing:	Apex Test Classes (>85% coverage), FLS, CRUD, Sharing Rules, OWD, Profile & Permission Sets, Record-Level Security

• KEY PROJECTS

SPS Command Center – Fleet Compliance Dashboard

LWC, Apex, Custom Metadata, LDV Patterns, SOQL

- Engineered enterprise fleet compliance command center with sub-second response times for 100K+ records using LDV-optimized cursor-based pagination.
- Implemented real-time readiness scoring and exception tracking across MVR, License, Medical, and Telematics domains.

Hero Future Energies (HFE) – EHS Module

LWC, Apex, Salesforce Flows, Custom Objects, Triggers

- Delivered complete EHS solution single-handedly within 4 months, reducing manual tracking by 60%.
- Implemented Incident Management, Hazard Reporting, Training Management, and Mock Drills with 24+ configurable questions.
- Designed 5-Whys Root Cause Analysis module using Custom Metadata for flexible configuration.

Multi-Portal Architecture

LWC, Experience Cloud, Custom Permissions, Apex, Sharing Rules

- Architected 3 portal types (Platform, Community, Mobile) using Experience Cloud with configurable menu system.
- Built admin console for picklist management, feature toggles, and user access with custom permission framework.

External Integrations Hub

Named Credentials, Apex Queueable, REST APIs, Bulk API

- Designed centralized integration layer connecting 4 external services using Named Credentials and Apex Queueable.
- Implemented retry logic, error handling, and audit logging for enterprise-grade reliability.

Salesforce Hybrid UI – Mobile Application

LWC OSS, IndexedDB, Bulk API

- Developed mobile-friendly app for incident/hazard reporting outside Salesforce environment.
- Implemented offline mode using LWC-OSS and IndexedDB with Bulk API sync for seamless data synchronization.

• SALESFORCE CERTIFICATIONS & TRAILHEAD

Salesforce Platform Developer I Nov 2025	Salesforce AI Specialist Nov 2024	Salesforce AI Associate Oct 2024	Trailhead Ranger 144 Badges 139,775 Points
